STATEMENT FOR INFORMATION DISCLOSURE UNDER  
37 C.F.R. § 1.97(c)

NOTE: A statement must state either (1) that each item of information contained in the information disclosure statement was cited in a communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of the information disclosure statement, or (2) that no item of information contained in the information disclosure statement was cited in a communication from a foreign patent office in a counterpart foreign application and to the knowledge of the person signing the statement that making reasonable inquiry, no item of information contained in the information disclosure statement was known to any individual designated in § 1.86(a) more than three months prior to the filing of the information disclosure statement. 37 C.F.R. § 1.97(c).

Under the first statement under § 1.97(c), it does not matter whether any individual with a duty of disclosure actually knew about any of the information cited before reaching the correct report. The date on the communication by the foreign patent office begins the 3-month period in the same manner as the making of an Office action starts a 3-month shortened statutory period for reply. See § 602.93, M.P.E.P., 6th Edition.

<sup>\*</sup> Only the date of filing § 1.6 will be the date used in a patent term adjustment calculation, although the date on any certificate of mailing or transmission under § 1.0 continues to be taken into account in determining timeliness. See § 1.703(b). Consider "Express Mail Post Office to Addressee" (§ 1.10) or facsimile transmission (§ 1.64) for the reply to be assessed the correct possible filing date for patent term adjustment calculation.

(Statement for Information Disclosure under 37 C.F.R. § 1.97(c) [U-]—page 1 of 3)

**NOTE:** "Section 1.97(e) makes it clear that a certification could contain either of two statements. One statement is that each item of information in an information disclosure statement was cited in a search report from a patent office outside the U.S. not more than three months prior to the filing date of the statement. Under this certification, it would not matter whether any individual with a duty actually knew about any of the information cited before receiving the search report. In the alternative, the certification could state that no item of information contained in the information disclosure statement was cited in a communication from a foreign patent office in a counterpart foreign application and, to the knowledge of the person signing the certification after making reasonable inquiry, was known to any individual having a duty to disclose more than three months prior to the filing of the statement." Notice of January 9, 1992, 1135 O.G. 13-25, at 13. (emphasis added). Thus: "If an item of information is submitted within three months of being cited in a communication from a foreign patent office in a counterpart foreign application, the certification can be properly made regardless of any individual's previous knowledge of the information." *Id.*, 1135 O.G. at 19. See § 609B(5), M.P.E.P., 8th Edition.

**NOTE:** "The date on the communication by the foreign patent office begins the 3-month period in the same manner as the mailing of an Office action starts a 3-month shortened statutory period for reply. If the communication contains two dates, the mailing date of the communication is the one which begins the 3-month period. The date which begins the 3-month period is not the date the communication was received by a foreign associate or the date it was received by a U.S. registered practitioner. Likewise, the statement will be considered to have been filed on the date the statement was received in the Office, or on an earlier date of mailing or transmission if accompanied by a properly executed certificate of mailing or facsimile transmission under 37 CFR 1.8, or if it is in compliance with the provisions for "Express Mail" delivery under 37 C.F.R. 1.10." See § 609B(5), M.P.E.P., 8th Edition.

**NOTE:** "The certification can be based on present, good faith knowledge about when information became known without a search of files being made." Thus, for example, the certification of § 1.97(e) does not preclude the use of the certification in an application by corporations whose practitioners have over the years reviewed thousands of patents and technical publications, even though they are unaware of the relevance of any one thereof to the application. Notice of January 9, 1992, 1135 O.G. 13-15, at 19.

See § 609B(5), M.P.E.P., 8th Edition:

"If an information disclosure statement includes a copy of a dated communication from a foreign patent office which clearly shows that the statement is being submitted within 3 months of the date on the communication, the copy will be accepted as the required communication. It will be assumed, in the absence of evidence to the contrary, that the communication was for a counterpart foreign application.

"In the alternative, a statement can be made if no item of information contained in the information disclosure statement was cited in a communication from a foreign patent office in a counterpart foreign application and, to the knowledge of the person signing the statement after making reasonable inquiry, neither was it known to any individual having a duty to disclose more than 3 months prior to the filing of the statement."

**NOTE:** A copy of the foreign search report need not be submitted with the certification. Notice of April 20, 1992 (1138 O.G. 37-41, 40).

**NOTE:** "The phrase 'after making reasonable inquiry' makes it clear that the individual making the statement has a duty to make reasonable inquiry regarding the facts that are being certified. The statement can be made by a registered practitioner who represents a foreign client and who relies on statements made by the foreign client as to the date the information first became known. A registered practitioner who receives information from a client without being informed whether the information was known for more than three months, however, cannot make the statement without making reasonable inquiry. For example, if an inventor gave a publication to the attorney prosecuting an application with the intent that it be cited to the Office, the attorney should inquire as to when that inventor became aware of the publication and should not submit a statement under 37 C.F.R. 1.97(e)(2) to the Office until a satisfactory response is received. The statement can be based on present, good faith knowledge about when information became known without a search of files being made." Notice of April 20, 1992 (1138 O.G. 37-41, 39).

See § 609B(5), M.P.E.P., 8th Edition.

**NOTE:** "Although it is recognized that an individual actually becomes aware of the information in the communication from a foreign patent office sometime after it was mailed, the mailing date of such a communication, if it occurs prior to a first awareness of the same information, would determine the date for filing of an information disclosure statement without a fee" in a certification procedure under § 1.97(e). Notice of January 9, 1992, 1135 O.G. 13-25, at 19 (emphasis added).

NOTE: The mere disclosure of information from a foreign patent office communication is not intended to represent an opportunity to study the substance of a known patent more than three months prior to the filing of an information disclosure statement to an individual having the duty of disclosure under § 1.53 of Fed. Reg. 53,131, 53,150 (Oct 10, 1977).

NOTE: The IDS is considered filed on the date it is received in the PTO, or on the date of mailing or transmission if done so with a properly addressed certificate of mailing or transmittal under 37 C.F.R. § 1.4, or if it is in compliance with the provisions for "Express Mail" delivery under 37 C.F.R. § 1.10. See § 603.23, M.P.E.P., 6th Edition.

NOTE: The certification under § 1.97(c) should be made by a person who has knowledge of the facts being certified. The certification can be made by a practitioner who represents a foreign client and who knows or reasonably knows by the foreign client as to the date the information first became known. A practitioner who receives information from a client without being informed whether the information was known for more than three months, however, cannot make the certification without making reasonable inquiry. <sup>o</sup> Notice of January 2, 1982, 1153 O.G. 19-23 at 19.

NOTE: The term counterpart foreign patent application means that a claim for priority has been made in either the U.S. application or a foreign application based on the other, or that the disclosure of the U.S. and foreign patent applications are substantially identical (i.e., an application filed in the European Patent Office claiming the same U.S. priority is deemed to be a U.S. application). <sup>o</sup> Notice of April 20, 1982 (1133 O.G. 37-41, 38). See § 603.23, M.P.E.P., 6th Edition.

NOTE: Individuals other than the attorney, agent or inventor may comply with this section by disclosing information to the attorney, agent or inventor. <sup>o</sup> 37 C.F.R. § 1.53(d) and  
Individuals associated with the filing or prosecution of a patent application within the meaning of this section are:

- (1) each inventor named in the application;
- (2) each attorney or agent who prepares or prosecutes the application; and
- (3) every other person who is substantially involved in the preparation or prosecution of the application and who is associated with the inventor, with the attorney or with anyone to whom there is an obligation to assist the application. <sup>o</sup> 37 C.F.R. § 1.53(e).

## STATEMENT

NOTE: A statement under 37 C.F.R. § 1.97(c) need not be in the form of an oath or a declaration under 37 C.F.R. § 1.63. A statement under 37 C.F.R. § 1.97(c) by a registered practitioner or any other individual that the statement was filed within the 3-month period of either the first election by a foreign patent office or first discovery of the information will be accepted as compliance of compliance with this provision in the absence of evidence to the contrary. <sup>o</sup> 603.23, M.P.E.P., 6th Edition.

2. I, the person(s) signing below state:

- ☐ that each item of information contained in the information disclosure statement was first cited in any communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of the information disclosure statement. 37 C.F.R. § 1.97(e)(1).

NOTE: The three month period starts from the mailing date of the foreign patent office communication. Notice of January 9, 1992, 1135 O.G. 13-25 at 18. The mailing date is the "date on the communication by the foreign patent office." Notice of April 20, 1992 (1138 O.G. 37-41, 38).

OR

- ☒ that no item of information contained in the information disclosure statement was cited in a communication from a foreign patent office in a counterpart foreign application and, to my knowledge, after making reasonable inquiry, no item of information contained in this information disclosure statement was known to any individual designated in § 1.56(c) more than three months prior to the filing of the information disclosure statement. 37 C.F.R. § 1.97(e)(2).

NOTE: "The time at which information was known to any individual designated in 37 C.F.R. 1.56(c) is the time when the information was discovered in association with the application even if awareness of the materiality came later." Notice of April 20, 1992 (1138 O.G. 37-41, 40). Section 609B(5), M.P.E.P., 8th Edition.

(Transmitted of Information Disclosure Statement before Mailing Date of Either a Final Action Or Notice of Allowance) [Page 1 of 2]

**NOTE:** 37 C.F.R. § 1.704(d): "A paper containing only an information disclosure statement in compliance with §§ 1.97 and 1.98 will not be considered a failure to engage in reasonable efforts to conclude prosecution (processing or examination) of the application under paragraphs (c)(9), (c)(10), (c)(11), or (c)(12) of this section if it is accompanied by a statement that each item of information contained in the information disclosure statement was cited in a communication from a foreign patent office in a counterpart application and that this communication was not received by any individual designated in § 1.56(c) more than thirty days prior to the filing of the information disclosure statement. This thirty-day period is not extendable."

**NOTE:** "If information submitted during the period set forth in 37 C.F.R. 1.97(c) with a certification is used in a new ground of rejection on unamended claims, the next Office action will not be made final since in this situation it is clear that applicant has submitted the information to the office promptly after it has become known and the information is being submitted prior to a final determination on patentability by the Office. However, the information submitted with a certification can be used in a new ground of rejection and the next Office action made final, if the new ground of rejection was necessitated by amendment of the application by applicant. Where the information is submitted during this period with a fee, the examiner may use the information submitted, e.g., printed publication or evidence of public use, and make the next Office action final whether or not the claims have been amended, provided that no other new ground of rejection which was not necessitated by amendment to the claims is introduced by the examiner. See MPEP 708.07(h). If a new ground of rejection is introduced that is neither necessitated by an amendment to the claims nor based on the information submitted with the fee set forth in 37 C.F.R. § 1.17(p), the Office action shall not be made final." Notice of April 20, 1988 (1138 O.G. 37-41, 38).

**WARNING:** "A petition for suspension of action to allow applicant time to submit an information disclosure statement will be denied as failing to present good and sufficient reasons, since 37 C.F.R. § 1.97 provides adequate recourse for the timely submission of prior art for consideration by the examiner." Notice of July 6, 1988 (1141 O.G. 63). But see § 103(b) and (c), limited suspension of action in a continued prosecution application (CPA) filed under § 1.53(c) and in a request for continued examination (RCE) under § 1.114.

**WARNING:** No extension of time can be had under 37 C.F.R. 1.136 (a) or (b) for filing an IDS. 37 C.F.R. 1.97(f).
